

Contents

- Aleksander CHUDY, Paweł MAZUREK, Korneliusz PAWLAK - Analysis of power quality parameters at facilities connected to the municipal electricity grid	1
- Janusz BARAN, Andrzej JĄDERKO - Control of the wind turbine blades angle in the range of high wind speeds by LPV method with programmable gain	5
- Kamila BIAŁEK, Anna POTULSKA-CHROMIK, Jacek JAKUBOWSKI, Monika NOJSZEWSKA, Anna KOSTERA-PRUSZCZYK - The application of sentence sequences in the diagnosis of Parkinson's disease from handwriting samples using convolutional neural networks	10
- Michał STYŁA, Dominik GNAŚ, Przemysław ADAMKIEWICZ - Implementation of reflective methods for microwave frequency signal processing in radio tomography	14
- Akinniyi AKINSUNMADE - Soil physical properties evaluation from geophysical and remote sensing datasets	18
- Paulina BAŁUSZYŃSKA, Marcin TOMASIK - The design of an electro-stimulating band for the rehabilitation of animal limbs	22
- Borys BOROWIK, Michał TAGOWSKI, Marek KEŚY - The process of electrodynamic shaping of aluminium pipe charges concerning the errors in shaping the deformed surface	28
- Andriy CHABAN, Andrzej SZAFRANIEC, Vitaliy LEVONIUK, Andrzej ERD, Marek CHMIEL - A mathematical model of a non-linear concentrated parameter electromagnetic circuit based on the modified Hamilton-Ostrogradsky principle	32
- Paweł CZAJA - Determination of the effect of load currents on the effectiveness of the residual current circuit device	36
- Tomasz DRÓZDŹ - The effect of PEF on photon content in selected edible oils	40
- Agnieszka Joanna DRZYMAŁA, Ewa KORZENIEWSKA - Application of the YOLO algorithm in fire and smoke detection systems for early detection of forest fires in real time	44
- Andrzej ERD, Tomasz CISZEWSKI - Comparative analysis of selected vehicle range approval tests	48
- Bartłomiej GARDA, Karol BEDNARZ - Testing the SDC memristors in three phase systems	52
- Piotr ŁYSZCZARZ, Jarosław KNAGA, Krzysztof NĘCKA, Stanisław LIS, Miłosz NICPOŃ - The process of self-consumption of electricity in systems consisting of PV installations and heat pump	56
- Barbara STEFANIAK, Amelia KOSIOR-ROMANOWSKA, Paweł TCHÓRZEWSKI, Anna IWANICKA-MACIURA, Dariusz WÓJCIK - Classification lung diseases with electrical impedance tomography	60
- Grzegorz KŁOSOWSKI, Michał OLESZEK, Dariusz WÓJCIK, Konrad NIDERLA - The use of LSTM with self-attention layer for monitoring industrial reactors using impedance and capacitance tomography	64
- Krzysztof KRÓL, Michał GOŁĄBEK - Ultrasonic tomograph for industrial research	68
- Mariusz MAZUREK, Marcin DZIADOSZ, Grzegorz KŁOSOWSKI, Dariusz WÓJCIK, Krzysztof KRÓL - Application of electrical tomography in technological processes	72
- Paweł KIEŁBASA, Paweł PYSZ - Effect of geo-radar signal processing method on the degree of reflection of soil cohesion	76
- Anna MIERNIK, Paweł KIEŁBASA, Tomasz DRÓZDŹ, Paweł PYSZ, Akinniyi AKINSUNMADE, Stepan KOVALYSHYN - Effect of ultrasound stimulation on the growth of Gram positive and Gram negative bacteria	80
- Marcjan NOWAK, Adrian BARASIŃSKI - Loss analysis of a voltage inverter with SiC MOSFET transistors	84
- Andrzej POPENDA, Marcjan NOWAK - Comparison of elastic drive shaft models	88
- Agnieszka PRIL, Leszek KASPRZYK, Anna HANC, Dariusz MICHALAK - Issues in the functioning of lithium-ion batteries in electric vehicles and the methods of prevention	93
- Rafał PRZESMYCKI, Marek BUGAJ, Roman KUBACKI, Tomasz PIAŚCIK - Microstrip antenna for DVB-T2 system	97
- Jacek RYMASZEWSKI - Communication standards and protocols for the Internet of Things	102
- Marcin TOMASIK, Paulina BAŁUSZYŃSKA - Programming of vision systems for fruit identification	106
- Krzysztof TOMCZEWSKI - Adaptation of a switched reluctance generator to work with a small photovoltaic power plant	112
- Paweł TOMIŁO, Joanna MICHAŁOWSKA, Jan LASKOWSKI, Jarosław PYTKA, Orest KOCHAN, Ernest GNAPOWSKI - Artificial neural network model for estimation of relative airplane altitude	116
- Krzysztof WRÓBEL, Artur ŚLIWIŃSKI - Optimization of a generator for a small home wind power plant	120
- Serhiy SYROTYUK, Volodymyr HALCHAK, Vasyl LOPUSHNIAK, Serhii KOROBKA, Hanna SYROTYUK, Taras STANYTSKYI, Kateryna YANKOVSKA, Tomasz JAKUBOWSKI, Jan GIEŁŻECKI, Boris BOLTYANSKYI - The application of fuzzy logic algorithms in controllers for controlling the use of renewable energy sources	125
- Robert KAZNOWSKI, Dariusz SZTAFROWSKI - Application of deep learning methods in an electric car charging system using renewable sources and energy storage	133

Contents

- JERUSHAN J, Vincent Sam JEBADURAI S, Noble STAINES J, SUBIN S.R, EBENEZER V, Shamila EBENEZER A, HEMALATHA G - Crack characterisation in buildings utilizing deep learning techniques	137
- Valeriy OBORZHITSKY, Stefan PASZEK, Anna PIWOWAR - Application of the symmetric and antisymmetric excitation technique at the symmetrical two-port networks design	144
- T AATHMANESAN - Wearable Wonder: A compact dipole antenna for triple band Sub-6 GHz 5G and WLAN applications	148
- Maciej GWOŹDZIEWICZ, Piotr KISIELEWSKI - Double-voltage double-speed induction motor	154
- Piotr STROBEJKO, Piotr PAPLICKI, Maciej CIEŚLA - Simulation results of an electromagnetic field concentrator for process chambers	157
- Mateusz GLINKOWSKI, Bogdan PASZKIEWICZ, Regina PASZKIEWICZ - Buffer leakage current in lateral AlGaIn/GaN HEMT	161
- Gabriela LEWIŃSKA, Katarzyna UNGEHEUER, Konstanty MARSZAŁEK - Application of copper oxide CuO layers as a support layer in binary and ternary organic cells	166
- Janusz RYBAK, Konstanty MARSZAŁEK - Investigation of the cosmic radiation effects on the components of a thin-film electrochromic system	169
- Katarzyna UNGEHEUER, Amelia E. BOCIRNEA, Denis A. PIKULSKI, Konstanty W. MARSZAŁEK, Aurelian C. GALCA, Juliusz CHOJENKA, Tamas FODOR, Kalman VAD - Influence of proton irradiation on CuO thin films properties	173
- Kheira MELOUK, Mohamed DELLA KRACHAI, Saidia DELLA KRACHAI - PV fed boost converter efficiency improvement using neural networks and model predictive control	177
- Marta CZARNOWSKA, Przemysław STENCEL - High-power electromagnetic pulse resistance tests – description, applications, countermeasures	182
- Olena HEBDA, Damian KALISZUK, Maciej MACKO - Human centric lighting luminaires electromagnetic compatibility	187
- Rafał PRZESMYCKI, Marek BUGAJ - Measurement of electrical parameters of materials used for the substrate of textronic antennas operating in the planned 5G system bands	193
- Rafał PRZESMYCKI, Roksana WASZKIEWICZ-BRAKONIECKA - Possibilities of using measurement antennas in the laboratory stand to generate an electric field of 50 V/m and 100 V/m	199
- Szymon WRÓBEL, Krzysztof KĘPA - FIRV: A language-based control flow integrity protection for RISC-V architectures	204
- Mykhaylo ZAGIRNYAK, Serhii PRITCHIN, Iryna OKSANYCH, Nataly RYLOVA, Oleksii PRYTCHYN, Alyona NIKITINA - The determination of rational dimensions of the inductor and the development of a PEMF therapy device	210
- Bogdan PERKA, Bartłomiej PYZA - Temperature stability of capacitance in high-voltage ceramic capacitors	215
- Ewelina MAJDA-ZDANCEWICZ, Wiktor PIERZAK - Analysis of the possibility of using an audio signal to detect the state of the machine based on the sound it generates	219
- Radosław JASTRZĘBSKI, Krzysztof CHWASTEK - The effect of GRUCAD model modifications on its accuracy	224
- Jerzy TCHÓRZEWSKI - Neural model of 24-hour simultaneous power demand with daily advance in the National Power System	228
- Marta BAŹKIEWICZ-PANTUŁA - Interference present in the electrical installation with special consideration of higher harmonics	233
- Mariusz ZDANOWSKI, Jan KLAIN - Two-branch, bidirectional direct DC-DC converter for teaching and research applications	237
- Aleksandra KUCHARCZYK-DRAB, Radosław RYNIĘC, Marek PISZCZEK - Experimental measurement setup for hyperspectral mapping of diffuse radiation from the hemispheric sky	242
- Abdelghani CHAHMI, Said BENKAIHOUL, Toufik Tayeb NAAS, Özüpak YILDIRIM - Inter-turn short circuit fault detection in induction motor using XGBoost, KNN and Random Forest	248
- Mikołaj DROZDOWICZ, Zbigniew WATRAL, Andrzej MICHAŁSKI - Simple demonstrator of the artificial hand movement system	254
- Kornelia A. BANASIK, Andrzej Ł. CHOJNACKI - Impact of climatic factors on the restoration time of MV power lines	265
- Kornelia A. BANASIK, Andrzej Ł. CHOJNACKI - Influence of atmospheric conditions represented by wind, precipitation and air temperature on the intensity of failures of medium-voltage power lines	269
- Michał SZUBERT, Krzysztof SZYBIŃSKI - Effect of measuring response of guitar speaker cabinet using high output impedance power amplifier	276
- Tomasz DRABEK, Paweł DYBOWSKI, Jakub WÓJCIK - Proposal for changes to the method of accounting for reactive energy charges in the national power system	281
- Krzysztof HABELOK, Paweł LASEK, Mariusz STĘPIEŃ, Kamil GRUSZCZYK - Comparison study of critical current angular dependence in YBCO tapes	287
- Jakub KISAŁA, Andrzej KOCIUBIŃSKI - Analysis of the scatter of parameters of magnetoresistive structures obtained by magnetron sputtering	292
