

Contents

01	Michał POŁECKI, Łukasz ROKICKI, Dariusz BACZYŃSKI, Tomasz RODZIEWICZ, Andrzej SZYP, Marek RAFALSKI - Optimal localization and connection of electric city bus charging station to urban power grid using artificial intelligence	1
02	Sylwester ADAMEK - Criteria for connecting energy sources and storage facilities to the medium voltage grid	5
03	Jerzy ANDRUSZKIWICZ, Józef LORENC, Agnieszka WEYCHAN - Price elasticity of demand of consumers paying the capacity fee in zones and its application	10
04	Dariusz BOBER, Robert JĘDRYCHOWSKI, Piotr MILLER, Marek WANCERZ, Michał SWÓRKA, Mirosław PASTUSZAK - The impact of a renewable energy source on the power energy characteristic of a processing plant.	14
05	Paweł BUĆKO - Commercial and technical balancing of energy in the areas of the distribution network	22
06	Edmund CIESIELKA, Paweł DYBOWSKI, Jakub WOJCIK - Changes in the energy market structure and their impact on the formation of tariffs for electricity sales and distribution services. Optimization of purch	26
07	Klara JANIGA - Comparison of selected methods for limiting voltage deviations in the IEEE test network with prosumer installations	30
08	Barbara Kaszowska, Dariusz Jeziorny, Ryszard Stolarczyk, Wojciech Schab - An influence of renewable energy source and energy storage devices on terms of distributions network action	36
09	Henryk KOCOT, Agnieszka DZIENDZIEL - Selected problems of adapting the power network to changing generation conditions	40
10	Marcin KOPYT, Dariusz BACZYŃSKI, Tomasz GULCZYŃSKI - Forecast of task execution time by vehicle fleet employees for electric vehicle fleet work planning with regard to charging	44
11	Justyna KOWALSKA, Piotr MILLER - Does the cabling of MV networks force a change in the way the neutral point works on these networks?	48
12	Artur LEŚNIAK, Karolina PALACZ, Tomasz SURMA, Krzysztof ZAMASZ - Evolution <reform> of the Union's electricity market	52
13	Mariusz Lewandowski, Maciej KANIECKI, Stanisław LEWANDOWSKI - Practical aspects of the participation of hydropower plants in the energy transformation process, with particular emphasis on energy storage and the provision of flexibility services	56
14	Hanna MIKOŁAJUK, Jakub JAWORSKI - Polish power industry 2020-2022	64
15	Patryk NALEPKA - Polish capacity market in the perspective of the provisions of the Electricity Market Design reform	71
16	Paweł PIJARSKI, Piotr MILLER, Sonata TOLVAIŠIENĖ, Piotr KACEJKO, Jonas VANAGAS - A method for quickly determining the individual connection possibilities of power grid nodes	75
17	Paweł PIOTROWSKI, Marcin KOPYT, Łukasz ROKICKI - Input data importance for short-term forecasting of a PV generation in an industrial facility	82
18	Maksymilian PRZYGRÓDZKI, Rafał GWÓŹDŹ, Bolesław JANKOWSKI - Analysis of the needs for the implementation of energy storage in the National Power System	86
19	Łukasz ROKICKI, Mirosław PAROL, Marcin KOPYT - Development of preventive measures to limit peak electrical loads at the level of a selected industrial plant as part of the international research project DIEGO	90
20	Daria ZŁOTECKA, Aleksandra RAKOWSKA - The impact of the energy transformation on the National Power System restoration plan	95
21	Krzysztof SOŁTYS, Krzysztof KLUSZCZYŃSKI, Ewa KRAWCZYK - About the possibility of expressing emotions through a face mask covered with ferromagnetic powder activated by a magnetic field	99
22	Oleksandr BOIKO, Radosław GAD, Makiko KOBAYASHI, Fumiaki MITSUGI, Illia DIAHOVCHENKO - Nanofluids containing conductive nanoparticles: the review of thermal and electrical properties. Selected applications in electrical and thermal engineering, and energy sector	104
23	Paweł IDZIAK, Krzysztof KOWALSKI, Mateusz OLEJNICZAK - Application of digital prototyping to determine the natural frequencies of a rail vehicle pantograph	110
24	Paweł TOFILSKI, Krzysztof Kluszczyński - Concept and construction of a laboratory model of a pump equipped with a flexible ferromagnetic membrane driven by an electromagnetic exciter	115
25	Krzysztof KONOPKA, Zdzisław KONOPKA - Prospects of Induction Heating in Electrotechnologies and Electroheating - Two Specialized Markets of Electroprosumerism	120
26	Souha AYADI, Zied LACHIRI - Learning rate interference to overcome overfitting for Audio Emotion Recognition using LSTM	125
27	Yamina BENHADDA, Fatima Zohra MEDJAUI, Abderrahim MOKHFI, Azzedine HAMID, V. BLEY - Cooling Optimization of Integrated Planar Spiral Inductor with Heat Sink	129
28	Naphat SAOTHONG, Samroeng SANTALUNAI, Samran SANTALUNAI, Chanchai THONGSOPA, Weerawat CHAROENSIRI, Jariya PAKPROM, Thanaset THOSDEEKORAPHAT, Nuchanart SANTALUNAI, Pichaya CHAIPANYA - Optimizing Particulate Matter Filtration: Evaluating the Efficacy of Electrode Spacing in Corona Discharge Dust Removal Systems	133
29	Mohd Firdaus Mohd Ab Halim, Azhan Abd Rahman, Erwan Sulaiman - Concentric Magnetic Gear Structure Review	140
30	Elbrus AHMEDOV, Nadir ALIYEV, Seymur SADIQOV - Increasing the Impulse Electrical Strength of Winding Insulation of High-Voltage Transformers	148

Contents

31	Souha AYADI, Zied LACHIRI - Visual Emotion Recognition based on transfer learning technique using VGG16	153
32	Ilham RAHIMLI, Aliashraf BAKHTIYAROV, Gulshan ABDULLAYEVA, Sona RZAYEV - Switching Processes Occurring In Electrical Networks 10-35 kV	156
33	Serhii STEPANENKO, Vasyl LUKACH, Iryna Demchuk, Alvian KUZMYCH, Roman KALINICHENKO, Viacheslav GERASYMENKO, Volodymyr VASYLY - Study of the rotary cleaners of the holes of cylindrical sieves on a vibrocentrifugal separator	160
34	Yahia JAZYAH¹ - Characterization and Modelling of Carrier Frequency Offset in OFDM Systems under Additive White Gaussian Noise	164
35	Imene CHERKI, Naima KHALFALLAH, Abdelkader CHAKER - Optimal distribution of reactive power by hybrid metaheuristic methods applied to the west Algerian network	170
36	Najiba PIRIYEVA, Gulschen KERIMZADE - Systematization of levitation equations for electrical devices with levitation elements	175
37	M.N. Brahami, I.S. Bousmaha, S. Boudjella, FZ. Boudjella, M. Brahami, S.E. Bechekir, Khelifi El Mabrouk - A new multilevel inverter topology, controlled by the pulse width and height modulation (PWHM) technique, with a reduced number of switches	178
38	Tural Aliyev, Jalal Ibrahimov, Shahla Qracova, Zarifa Isg - Dissolved gas analysis based fuzzy logic framework for power transformer asset management	185
39	BERBAOUI BRAHIM, DEHINI RACHID - Power quality enhancement using STATCOM-Fuel Cell Energy Control	190
40	Ilham RAHIMLI, Rashida KARIMOVA, Najiba PIRIYEVA - Development of a Two-Parameter Inductive Sensor for use in Digital Program Control Systems for Machine Tools	194
41	CHAOUFI Imane, ZAGHRAT Fatiha, BENEHMINE Asma, Abdelkhalek Othmane, GASBAOUI Brahim - ANN approach to SOC estimation of Lithium-Ion Battery	198
42	Shaik Ruksana Begam, Loveswara Rao Burthi, Shobha Rani Depuru - Simulation and Hardware implementation of Novel Controller in electric vehicle applications to improve system efficiency	201
43	Amine SOBH, Belkacem BELABBAS, Tayeb ALLAOUI - Utilizing a Five-Level Inverter for Grid-Connected PV Systems: Implementing an MPPT Algorithm with Super Twisting Sliding Mode Control	210
44	Dawid Jereczek, Dawid Budnarowski - Social mobile application using a proprietary matching algorithm based on collaborative filtering	215
45	Sylwia BERDOWSKA - Analysis of the operating parameters in the sloped solar chimney power plant)	219
46	Jakub POŚPIECH, Witold NOCOŃ - Rules for efficient development of multiagent systems for continuous process control	225
47	Sławomir ŁUKJANOW - Method of testing and evaluating the design of small electric cars	230
48	Elshad Safiyev, Ilham Rahimli, Nijat Mammadov - Method of qualitative impregnation of electric motor windings	238
49	Nurul Nadhirah Mohd RAZIB, Suziana AHMAD², Nurul HAJAR, Amirul Syafiq SADUN - An investigation on electric field emission in shielded capacitive coupler for wireless power transfer utilizing diverse materials	241
50	Nadir ALIYEV, Elbrus AHMEDOV, Samira KHANAHMEDOVA - Optimization of the Design of an Electromagnetic Slip Clutch for a Wind Power Plant	246
51	S. A. Subramaniam, N. A. Shairi, Z. Zakaria, N. B. Asan, M. K. Zahari, S. Alam³ - Analysis of Leaf Moisture of Chinese Mustard Green and Water Spinach using Single-Port Circular SRR Microwave Sensor for Post-Harvest in the Agriculture Industry	251
52	Aicha Flitti¹ - Bistream instability	255
53	Stanisław GALLA, Mirosław WŁAS - Electrical and impulse durability of LED lighting sources in environments with occurring harmonic disturbances	260
54	Mad Helmi Ab. Majid, Abu Bakar Ibrahim, Yusri Abdullah, Mohd Faid Yahya, Suhazlan Suhaimi, Satria Abadi¹ - STEMbot: An open source-based robotic kit as a middle school STEM education interest catalys	265
55	Deepa Beeta Thiyam, Shelishiyah Raymond, Padmanabha Sarma Avasarala - Motor Imagery EEG Signal Classification Using Optimized Convolutional Neural Network	273
56	Anatolii SEMENOV, Ruslan KHARAK, Yaroslav BYCHKOV, Volodymyr DUDNYK, Bauyrzhan YELEUSSINOV - Method of predicting the useful life of ultraviolet lamps in electrotechnical systems under UV radiation	280
57	Bhakti Yudho SUPRAPTO, Suci DWIJAYANTI, Muhammad Naufal Ghiffari ISKANDAR, Rendyansyah, Diah Rahmah DINI, Patrick Kusuma WIJAYA - Search for The Best Route on A GPS-Based Autonomous Electric Vehicle Using The A-Star Algorithm	284
58	Przemysław SADŁOWSKI, Piotr RATAJ, Jerzy HICKIEWICZ - Association of Polish Electrical Engineers during the period of changes in 1927-1928	292
